ARKETIPO / INDOOR

TABLE PRINCE

designed by Giuseppe Vigano' 2019

BASE: metal, finishes: titanium, black nickel or varnished micaceous brown or oxy grey.
TOP: Emperador or “Niveo white” marble with rotating tray “Lazy Susan”, “Moon Grey” or “Slate Grey” marble.
ATTENTION: On Moon Grey marble top it is possible to apply a polyester lacquer protection with an extra charge. Marble is characterized by porosity and cracking that, during the manufacturing process are filled with special resins or inserts in the same material. After the polishing the surface may present irregularities and natural micro holes, which, however, do not compromise the solidity of the product.
For the correct maintenance of all marble surfaces, it is recommended to use neutral detergents and no degreasers nor corrosive detergents. Acid substances may spoil the polished marble surface. It is also recommended to avoid contact with liquids and acid food and to remove immediately these substances if they accidentally come in contact with the surface.
