

**ARKETIPO / INDOOR**

# **TAVOLINO LITH**

*designed by Mauro Lipparini 2016*

**BASE:** metallo finitura black nickel oppure verniciato marrone micaceo o oxy grey.

**PIANO:** marmo Emperador opaco o pietra arenaria (codici: 5703801, 5703802 e 5703803) o vetro temperato fumé (codici: 5703804, 5703805 e 5703806) o marmo "Moon grey" (codici: 5703807 e 5703809) o marmo "Arabesque grey" (codice 5703808).

**ATTENZIONE:** il marmo presenta porosità e fessurazioni, che, durante le fasi di lavorazione, vengono riempite con resine specifiche o inserti dello stesso materiale. Dopo la lucidatura la superficie può presentare lievi irregolarità e/o micro-fori naturali, che non pregiudicano la solidità del prodotto finito.

Per la corretta manutenzione delle superfici in marmo, si consiglia di pulirle con detergenti neutri, evitando sgrassatori o prodotti corrosivi. L'acido può rovinare la superficie lucida del marmo. Si consiglia, quindi, di evitare il contatto con liquidi e alimenti acidi e di rimuovere immediatamente eventuali sostanze acide venute accidentalmente a contatto con la superficie.
